**Bottom Right**  
**Leather Boite** Adapting our successful black perspex boite mirror with a new leather surround

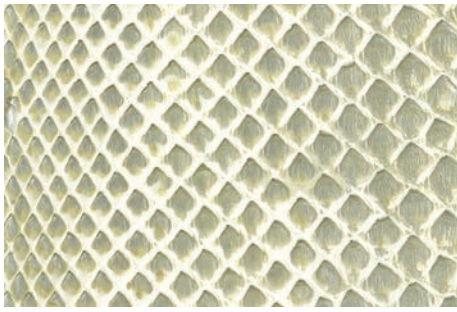

### A mirror when the TV is off, and a TV when the TV is on...

Simpsons offer the perfect solution to disguise your TV screens, with a new 2 way mirror. There are 2 alternatives for framing a TV: a frame the same size as the TV screen or a larger mirror than the actual size of the TV with the TV displayed within a section of the mirror. This option is available with any frame from the Simpsons range. We can work with any TV brand and design
